Transcript application

The admission latter not being available after one year

Features of google classroom and google calendar

Online application of transcript

Yes

The system is usually crowded since many students prefer using it so I'll like that if there is a possibility for each faculty to have theirs within the same system it will be good

Yea

A section to change your password and email address

Ability for multiple students to check results without the system throwing errors due to overcrowding

An option to edit students personal information like date of birth and profile photo

Online transcript application, apply for corrections to results online

Let there be light in all class rooms

Describe your experience and how it can be improved

12 responses

No

Nope, it doesn't have these functions

.

Verifying results before publishing

It can be improved by implementing a state with absolutely no errors especially in the transcripts

I don't know

No . Because of the population.but it can be improved by increasing more sites for the process

I don't think that is a feature

So far, I haven't had issues, so I think the application is on track

Some courses are usually uploaded in the wrong areas making it difficult to find

CA marks should not be posted on whatsapp groups. There is Portal for that
